As necessary the board may, by board resolution, create additional funds within the governmental, proprietary and fiduciary fund types. The resolution shall state the type of fund, name of the fund and purpose of the fund.

The general fund is used primarily for the education program. Special revenue funds are used to account for monies restricted to a specific use by law. Capital projects funds are used to account for financial resources to acquire or construct major capital facilities (other than those of proprietary funds and trust funds) and to account for revenues from SAVE. A debt service fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest. Proprietary funds account for operations of the school district operated similar to private business, and they account for the costs of providing goods and services provided by one department to other departments on a cost reimbursement basis. Fiduciary funds are used to account for monies or assets held by the school district on behalf of, or in trust for, another entity. The account groups are the accounting records for capital assets and long-term debt.

It is the responsibility of the superintendent in conjunction with the school business official to implement this policy and bring necessary changes in the maintenance of the school district's financial records to the attention of the board.
