MATH CALCULATOR - Cell phone calculators will not be allowed in math classes.

- Recommend the TI-30X IIS calculator (a graphing calculator is not needed).
- If you are wanting to buy a graphing calculator, our preferred graphing calculator is the TI-Nspire CX II (not CAS). However, there are many tests, in multiple JMS courses, where a graphing calculator is not allowed. If you have further questions, please speak to your math instructor.

PHYSICAL EDUCATION

- Wear appropriate gym clothes and tennis shoes and socks - so students can **a)** experience a full range of motion during activity and **b)** avoid injuries with improper shoes.
